* **Notice colours** The basic HIMACS material is identical for every colour but it is important to note that darker and more heavily pigmented colours will show dust, scratches, haziness, marks left by hard water and other ordinary wear and tear more noticeably than lighter textured colours. Therefore colours marked with a (*) are less suitable for applications that are exposed to extensive surface contact such as worktops located in heavy traffic area.

♻️ **Recycled colours** Certified to contain pre-consumer recycled content.
